Allowable Subject Matter

1. Claim 2 – 15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a method for providing location based information to a mobile station in communication with a cellular wireless system.

Applicant's independent claim 4 recites, *inter alia*, a method for providing location based information with a structure as defined in the specification (pages 10 – 14) including receiving a request for location based information regarding a service, the request including a service identifier, wherein the service identifier is associated with the service; associating a level of granularity with the service identifier; based on the service identifier, instructing the cellular wireless system to determine the position of the mobile station at the associated level of granularity. Applicant's independent claim 4 comprises a particular combination of elements, which is neither taught nor suggested by the prior art. Accordingly, applicant's claims are allowed for these reasons and for the reasons recited by the Board of Patent Appeals and Interferences dated 5/30/2008.

Regarding claims 9, 12 and 13, the claims are interpreted and allowed for the same reason as set forth in claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Un C. Cho whose telephone number is (571)272-7919. The examiner can normally be reached on M ~ F 9:00AM to 5:00PM.
